

KiWi New Energy (hereafter called "KiWi") is a blockchain based green energy investment & financing platform that connects solar project developers with green investors around the world.

Current solar power plant investment processes are very complicated and it presents a lot problem today such as high upfront capital request, lengthy process, high O&M cost, low system efficiency, and lack of transparency issues.

KiWi uses blockchain and AI engine to actively manages everything, from the sourcing & trading of solar project pipelines, to the smart solar underwriting, and tracking each project's proof of origin, now you can finally get exposure to a diversified portfolio of green investments with just a single click!

How KiWi Works?

1. Global Green Deal Flow
2. Solar Portfolio Development & Underwriting
3. Fund Capitalization
4. Construction & Operation
5. Monthly Cash Flows

Technology

1. Powered by Smart Inverter with 97% conversion efficiency
2. Solar projects optimized & managed by AI Engine, reduce O&M cost effectively
3. Blockchain based solar project underwriting & transaction

Competitive Advantages

1. 25 years of solid experiences in Solar & Semiconductor
2. Patented Smart Inverter ASIC Technology
3. Over 100,000 smart energy systems installed in 30 countries

Founding Team

Dr. Steve Huang
Founder & CEO

A serial green entrepreneur with over 15 years experience in Solar & Semiconductor
APAC Marketing Director of NVIDIA Corporation
PhD in Business Administration, University of London

Dr. Paul Garrity
Co-founder & CTO

Over 25 years experience in the PV inverter design and product development business
Holds over 25 patents & more in pending process
PhD in Electrical Engineering, University of Napier

Gary Hsiang
Co-founder & COO

25 years experience PV system design and solar power plant project management
Former Director of Solar BU of Darfon Electronic
EMBA and MSEE, National Taiwan University

Roadmap

Q3 2018, KiWi Token Sale
Q4 2018, Platform Development Phase I
Q1 2019, Platform Development Phase II
Q2 2019, Official Launch of KiWi Platform

Q3 2019, Market Expansion Phase I
Q4 2019, Market Expansion Phase II
2020, Market Dominance & Leadership

Token Model

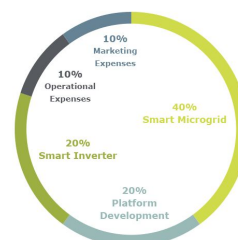

1. Priority Access
2. Premium Discount
3. Min. Transaction Fee
4. Loyalty Reward
5. S-REC Reward

Ticker Symbol: KIWI
Type: ERC20
Soft Cap 10M USD
Hard Cap 30M USD
Price: 1 KIWI= \$ USD 0.20

Smart Inverter 20%
Platform 20%
Smart Microgrid 40%
OP Expense 10%
Marketing 10%
